

1           70. (Amended) The nucleic acid library of [claims 64-67] claim 64, wherein the members  
2 of said library encode a single-chain antibody.

1           71. (Amended) The nucleic acid library of [claims 64-67] claim 64, wherein the first and  
2 the second polypeptide are expressed on the surface of a phage or bacterium.

1           73. (Amended) The nucleic acid library of [claims 49-67] claim 49, wherein said nucleic  
2 acids express rgdp polypeptides.

1           74. (Amended) A method of preparing a polypeptide said method comprising:  
2 a) providing a nucleic acid library of [claims 48 or 49-67] claim 48;  
3 b) selecting one or more members of said library; and  
4 c) expressing the nucleic acids of the one or more selected members.

1           82. (Amended) A polypeptide encoded by a member of a nucleic acid library of [claims  
2 48 or 49-67] claim 48.

1           83. (Amended) A host cell comprising a nucleic acid library according to [claims 48 or  
2 49-67] claim 48.

1           91. (Amended) A kit comprising a container containing a vector of [claims 85-90]  
2 claim 85.
